

Open Enrollment Communications

May 3 through May 28

Attention Members –

May is Open Enrollment and **now is the time** to make sure that Sedgwick Managed Care Ohio is your managed care organization (MCO) for workers' compensation. Sedgwick MCO (formerly CareWorks of Ohio MCO) is the **Ohio Association of Public Treasurers trusted partner**. Sedgwick MCO helps our members navigate the workers' compensation claims process, help employees recover and return to work, and control costs. This is an essential component of our workers' compensation program.

Your MCO plays a vital role in your ability to control claim costs, care for injured employees, and preserve options for premium savings. MCOs are involved in every claim to organize the medical treatment, facilitate return-to-work, and process medical bills. Sedgwick is Ohio's largest workers' compensation MCO, serving over 114,000 employers*.

If you already use Sedgwick MCO, no action is required on your part to maintain this important resource. But if not, please visit sedgwickmco.com to enroll with Sedgwick MCO. On the website you can also learn more about Sedgwick MCO and the importance of the MCO role to your organization and your employees.
